

# SWAPPING EVERYTHING RELATED TO ADZCOIN AND ADZBUZZ INTO VMT

In this tutorial I will show how you can swap everything related to ADZCoin and ADZbuzz into VMT.

## Swapping ADZ to VMT from ADZbuzz wallets (Ratio 1:1)

You need to register to Buzzex first because all VMT will be added there.

1. **Register to Buzzex** <https://buzzex.io/en/join/cS5rXg86S2oXMjtrxBFhrA>  
For ADZ -> VMT swap, you have to withdraw ADZ from ADZbuzz using withdrawal option.
2. **Withdrawing from regular wallets**

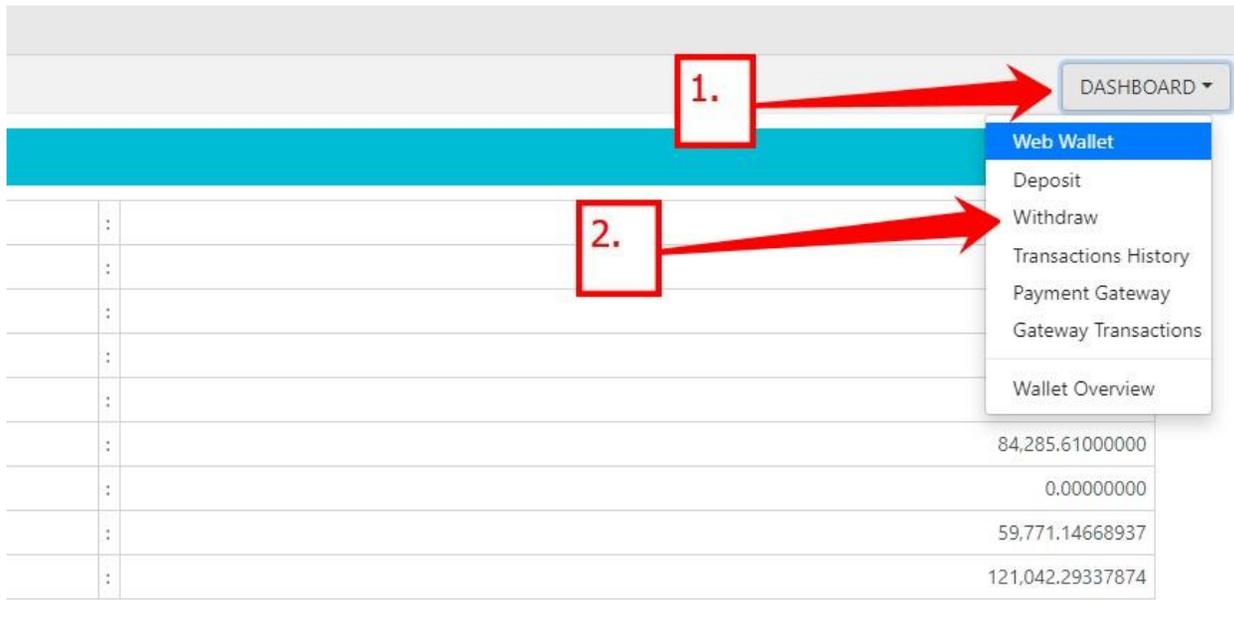

Check where you have ADZ in ADZbuzz wallets

**Web Wallet** <https://adzbuzz.com/adzcoin/wallet>

**Ad Wallet** <https://adzbuzz.com/aap/wallet-stats>

**Earnings Wallet** <https://adzbuzz.com/earnings>

If you have ADZ in any of those wallets then withdraw them to Buzzex by using your Buzzex email

Enter your Buzzex email address as the wallet address, copy the whole balance and click “withdraw”.

The screenshot shows a 'Withdraw' form with the following fields and annotations:

- Withdrawable Balance:** 20,000.00000000 ADZ. An annotation box says "2. Copy paste the whole balance" with an arrow pointing to the balance value.
- To Address:** armin.pajula@gmail.com. An annotation box says "1. Your Buzzex email" with an arrow pointing to the address.
- Amount:** 20,000.00. An annotation box says "3. Click here to withdraw" with an arrow pointing to the 'Withdraw' button.

Below the form is a red banner: "Withdrawals Processing — Withdrawal requests are manually approved and released. Approved requests are normally released within 24 Hours. For more information, please [check this post](#)."

Photos  
Microsoft Windows 10 Pro 32-bit Build 6.2.9200

If there is some error with the amount, check “commas” and “dots”.

The screenshot shows the 'Withdraw' form with an error message:

- Amount:** 20,000.00000000. An annotation box says "no comma" with an arrow pointing to the comma in the amount.
- Error Message:** "Amount must be a number greater than zero."

Copy the confirmation code from your email and click withdraw. Check for confirmation.

The screenshot shows the 'Withdraw' form with the following steps and annotations:

- Step 1:** "1. Add conf code from email" with an arrow pointing to the verification code input field containing "LBDEGEFY".
- Step 2:** "2. Click Withdraw" with an arrow pointing to the 'Withdraw' button.
- Step 3:** "3. Check for confirmation" with an arrow pointing to the 'Pending Approval' button in the 'Withdrawals History' table.

Below the form is a green banner: "Withdrawal verification code has been sent to your email. You'll receive the email after 5 minutes, [reload this page](#) and we'll sent you a new one."

Below the banner is a red banner: "Withdrawals Processing — Withdrawal requests are manually approved and released. Approved requests are normally released within 24 Hours. For more information, please [check this post](#)."

Below the banner is a green banner: "Withdrawals History"

Below the banner is a blue banner: "Amount of Withdrawals Paid: 134,492.66356761 ADZ  
Amount of Withdrawals Pending Approval: 0.00000000 ADZ  
Amount of Withdrawals Waiting Release: 0.00000000 ADZ"

Below the banner is a table with the following columns: TXN ID, Date, Net Amount, Fee, Status, Actions.

TXN ID	Date	Net Amount	Fee	Status	Actions
17686	2019-09-08 14:38:24	20000.00	0	Pending Approval	Cancel

**NOTE! Withdrawals are made manually, so give it time, you will get your VMT to your Buzzex account eventually.**

Do the same with all the wallets above where you have ADZ in them.

### 3. Withdrawing ADZ from Exchange wallet

#### a. Checking locked ADZ

Check if you have ADZ in ADZ Exchange <https://adzbuzz.com/exchange/wallets> and if they are reserved in orders or not

**1. Type "ADZ"**

**2. Check if you have any ADZ locked in orders**

Item	Balance <sup>1</sup>	Reserved In Orders <sup>2</sup>	Total <sup>3</sup>	Deposit	Withdraw	History
ADZ	201157.58761145	11095.76468000	212253.35229145	+	-	H
ADZAC	0.00000001	47115.20370055	47115.20370056	+	-	H
ACT80412 (adzcoindesk.com)	0.00000000	0.00000000	0.00000000	+	-	H
ACT82072 (myadzbuzzjourney.com)	0.00000000	0.00000000	0.00000000	+	-	H

<sup>1</sup> = Available balance.  
<sup>2</sup> = Amount reserved in open orders, but does not include open orders with dynamic price set.  
<sup>3</sup> = Total of <sup>1</sup> and <sup>2</sup>.

If you have ADZ locked in orders, proceed with the tutorial, if not, move to step B

In case you have ADZ locked, you have to cancel all orders with ADZ. For that go to your orders <https://adzbuzz.com/exchange/history/bids/bids> and check if you are buying something with your ADZ.

**1. You have to be here**

**2. sort**

**3. Choose ADZ market**

**4. Copy the pair**

**5. Click to check check the pair**

Order Time	Pair	Type	Price	Amount	Total
	ACT524735/ADZ	BUY	0.00300000	500.97368421	1.50292105
2018-08-09 13:09:30	KIN/ADZ	BUY	0.01590000	6697.47938258	106.48992218
2018-08-09 09:04:44	ACT232541/ADZ	BUY	0.00350000	22980.00000000	80.43000000
2018-08-08 18:22:54	ACT524735/ADZ	BUY	0.00250000	50000.00000000	125.00000000
2018-07-16 16:05:04	KIN/ADZ	BUY	0.02100000	50000.00000000	1050.00000000
2018-06-15 09:46:24	ACT130533/ADZ	BUY	0.00200000	500.00000000	1.00000000
2018-06-13 16:40:32	ACT165943/ADZ	BUY	0.00300000	37931.55601399	113.79466804

For faster moving between history and market, open another tab and paste this URL there

<https://adzbuzz.com/exchange/trade/ACT524735/ADZ>

Now just change the end of the URL with your preferred pair.

This way you can easily move between the history and the market of the chosen pair.

**NOTE! If you have ACT I would recommend sorting the history according to pairs as you have to cancel all open orders anyway and this way you are not double checking the same pair again.**

If you find an open order, close it by clicking "Cancel"

The screenshot shows the ADZ exchange trade interface. At the top, there are two panels for 'Buy' and 'Sell' orders. The 'Buy' panel shows a 'SELL ORDER' book with columns for Price, Amount, and ADZ. The 'Sell' panel shows a 'BUY ORDER' book with columns for Price, Amount, and ADZ. Below these is the 'OPEN ORDERS' section, which contains a table with columns: Date/Time, Type, Amount, Price, Value, and Action. A red box labeled '1. Check for open orders' points to the 'OPEN ORDERS' section. Another red box labeled '2. Cancel the order' points to the 'Cancel' button in the 'Action' column of the 'OPEN ORDERS' table. Below the 'OPEN ORDERS' section is the 'TRADE HISTORY' section, which contains a table with columns: Date/Time, Type, Amount, Price, and Value.

Date/Time	Type	Amount	Price	Value	Action
5/8/2018, 09:17:37	BUY	98590.00000000	ACT130533 0.00200000 ADZ	197.18000000 ADZ	Cancel

Date/Time	Type	Amount	Price	Value
7/11/2019, 03:53:11	SELL	1100.00000000	ACT130533 0.00250000 ADZ	2.75000000 ADZ

If you have closed all open orders, check your locked ADZ balance in your wallet again

<https://adzbuzz.com/exchange/wallets> If it is zero, move to another step.

The screenshot shows the 'Exchange Wallets' interface. At the top, there is a 'WALLETS' dropdown menu. Below it is a 'BALANCES' section with a blue header. There are two checkboxes: 'Hide Zero Balance' and 'Hide ACT Items', followed by an 'Update' button. A red box labeled '1. zero' points to the 'Balance' column in the table. Another red box labeled '2. Click to withdraw' points to the 'Withdraw' column in the table. The table has columns: Item, Balance, Reserved In Orders, Total, Deposit, Withdraw, and History.

Item	Balance	Reserved In Orders	Total	Deposit	Withdraw	History
ADZ	202243.35229145	0.00000000	212253.35229145	+	-	H

DASH	0.00000000	0.00000000	0.00000000	+	-	H

b. Withdrawing from wallet

If there are no ADZ reserved in orders you can proceed with the withdrawal. Click the “minus” and do exactly the same as when you withdrew ADZ from previous wallets.

Congrats! You have swapped all your ADZ in ADZbuzz to VMT.

### Swapping ADZ to VMT from external wallets (ratio 1:1)

**NOTE! Only ADZ acquired up till 2nd of June will count. And to exchange your ADZ to VMT, you have to send a proof of your holdings to Buzzex support**

**NOTE! If you had ADZ in Livecoin, you don't have to do anything, Livecoin has already swapped your ADZ to VMT.**

If you have ADZ in your offline wallet or in Yobit / Coinexchange you have to do the following:

1. Create a ticket here <https://support.buzzex.io/hc/en-us/requests/new>
2. Add the following info to the ticket
  - a. Your Buzzex email:
  - b. Screenshot of your holdings on external wallet
  - c. History of all the ADZ deposits and withdrawals
  - d. If your ADZ are in Exchange, all the history with ADZ trades too

## Swapping AD Credits to VMT (Ratio 1:1)

### 1. Disabling DFY enabled AD Credits

Go to this link <https://adzbuzz.com/aap/credits-stats>

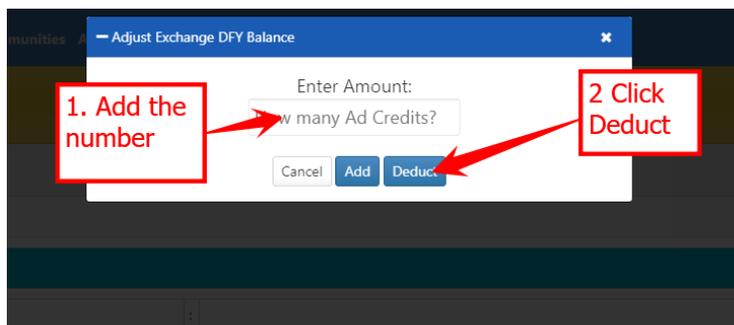

Check if you have anything in DFY-enabled credits. If yes, click "adjust".

Ad Credits Statistics		CREDITS STATS ▾

2. If yes, click adjust

1. Check if you have anything here

Add the number of your AD Credits and click "Deduct".

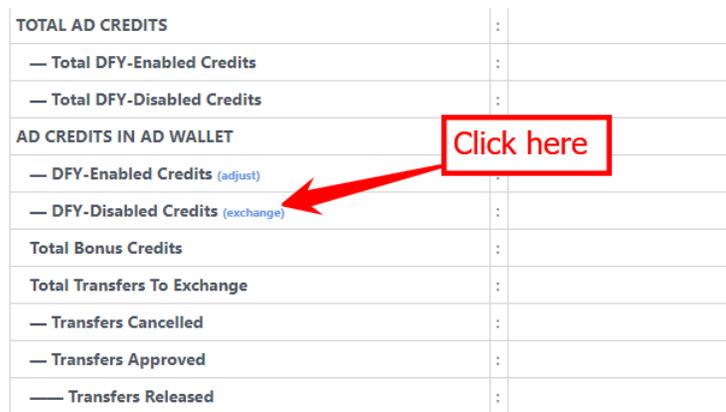

Do this with both AD Credits: On your AD Wallet and also on Exchange Wallet

## 2. Moving AD Credits from AD Wallet to ADZbuzz Exchange

After you have disabled DFY Enabled Ad Credits you have to send your AD Credits to ADZbuzz Exchange. For that click on “Exchange” next to “DFY-Disabled Credits”.

## 3. Withdrawing AD Credits from ADZbuzz Exchange to Buzzex

After you have all your AD Credits on ADZbuzz Exchange you can finally swap them to VMT. For that go to your ADZbuzz Exchange wallet <https://adzbuzz.com/exchange/wallets>

### a) Unlocking AD Credits from orders

Before you can withdraw, check if you have any AD Credits reserved in orders by searching for adzac in the search box and checking the “Reserved In Orders”

**Exchange Wallets** WALLETS ▾

**BALANCES**

Hide Zero Balance Hide ACT Items ▾ Update

Search: adzac

Item	Balance <sup>1</sup>	Reserved In Orders <sup>2</sup>	Total <sup>3</sup>	Deposit	Withdraw	History

<sup>1</sup> = Available balance.  
<sup>2</sup> = Amount reserved in open orders, but does not include open orders with a name.  
<sup>3</sup> = Total of <sup>1</sup> and <sup>2</sup>.

If you don't have locked AD Credits, move to the next step (b) if you have, proceed with the tutorial.

Go here <https://adzbuzz.com/exchange/trade/ADZAC/USDT> and cancel all open orders.

### b) Withdrawing AD Credits

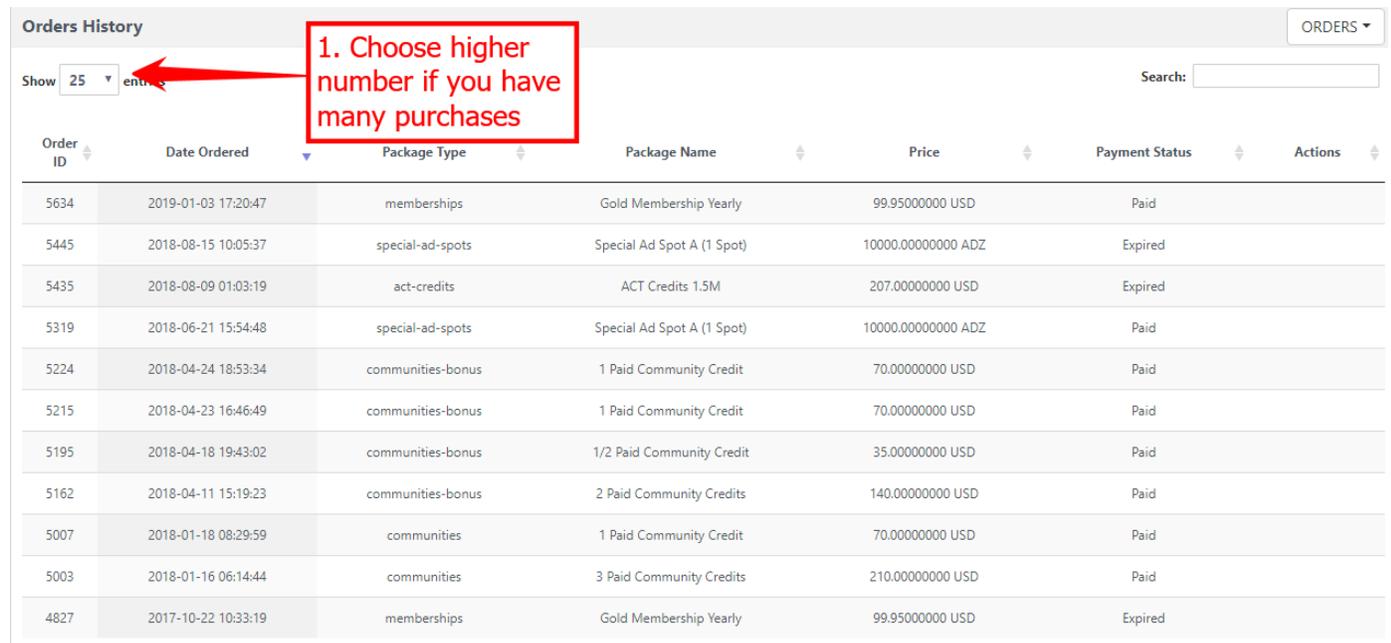

Go to ADZbuzz Exchange wallet again <https://adzbuzz.com/exchange/wallets> Search for adzac and click the “minus” sign. Proceed as with previous withdrawals.

**Congrats! You have swapped your AD Credits to VMT. Remember that withdrawals are done manually and it will take time.**

## Getting VMT from your ACT and Gold Membership purchases ratio (\$1 = 20 VMT)

Every \$1 used to purchase ACT Credits or Gold Membership will be rewarded with 20 VMT. For that you have to send a proof of your purchases which can be easily found in your purchases history here:

<https://adzbuzz.com/packages/orders>

Order ID	Date Ordered	Package Type	Package Name	Price	Payment Status	Actions
5634	2019-01-03 17:20:47	memberships	Gold Membership Yearly	99.95000000 USD	Paid

4827	2017-10-22 10:33:19	memberships	Gold Membership Yearly	99.95000000 USD	Expired	

Just make a screenshot of it and send to Buzzex Support <https://support.buzzex.io/hc/en-us/requests/new>

with your Buzzex email added to the ticket.

Congrats, you will get VMT for all your purchases. Note that it takes time but eventually your VMT will show up in your Buzzex wallet.

### Getting VMT for all your ACT's

Every ACT you withdraw will give you a share from the 500K VMT pool that is being shared with all ACT holders.

Go to your ADZbuzz Exchange Wallet <https://adzbuzz.com/exchange/wallets>

Choose to "Show ACT Items Only" and click "Update"

Click the "minus" and withdraw your ACT to your Buzzex email by following the same actions as with all the previous withdrawals.

The screenshot shows the ADZbuzz Exchange Wallet interface. At the top right, there is a 'WALLETS' dropdown menu. Below it, there is a search bar and a 'Show ACT Items Only' dropdown menu. A red box labeled '1. Choose this' points to the 'Show ACT Items Only' dropdown. To the right of this dropdown is an 'Update' button, which is pointed to by a red box labeled '2. Click "Update"'. Below these controls is a table with the following columns: Item, Balance 1, Reserved In Orders 2, Total 3, Deposit, and Withdraw. The table contains several rows of ACT items, each with a green '+' button in the Deposit column and a red '-' button in the Withdraw column. A red box labeled '3. Click "-" to withdraw' points to the red '-' button in the first row of the table.
